## Kadaster Netherlands

**Subject:** Condolences on the passing of Mr. Frank Tierloff

**Dear colleagues,**

On behalf of the Republic Geodetic Authority of Serbia, its Director Mr. Borko Drašković, and the entire institution, we wish to extend our deepest condolences on the passing of Mr. Frank Tierloff, Chairman of the Board of Kadaster Netherlands and Chair of UN-GGIM: Europe.

We were deeply saddened by this news. Mr. Tierloff was not only a highly respected professional and international leader, but also a strong visionary voice in the land administration and geospatial community. His dedication, clarity of purpose, and inclusive spirit were instrumental in shaping global cooperation — including through his leadership within UN-GGIM and support for initiatives that sought to bring practical impact to national systems worldwide.

To the Republic Geodetic Authority of Serbia, Mr. Tierloff was more than a colleague — he was a true friend and a trusted supporter. Through his thoughtful encouragement and active engagement, he provided unwavering support to the leadership of our institution and to our reform efforts. His calm determination, professionalism, and human warmth will remain in our memory as a lasting example of leadership with integrity and purpose.

Please accept our sincere sympathies and know that our thoughts are with all of you — his colleagues and friends — during this difficult time. We stand with you in honoring his legacy and carrying forward the values he represented.

**With deepest respect,**

Mr Borko Drašković, M. Sc in Geodesy, *Director*

Mr. Darko Vučetić, *Assistant Director*  
*UN-GGIM Europe Executive Committee & UNECE WPLA Bureau & Member*
